

Getting Started with Mission Secure

Military strength, industrial-grade OT protection backed by industry experts to stop cyber threats head-on.

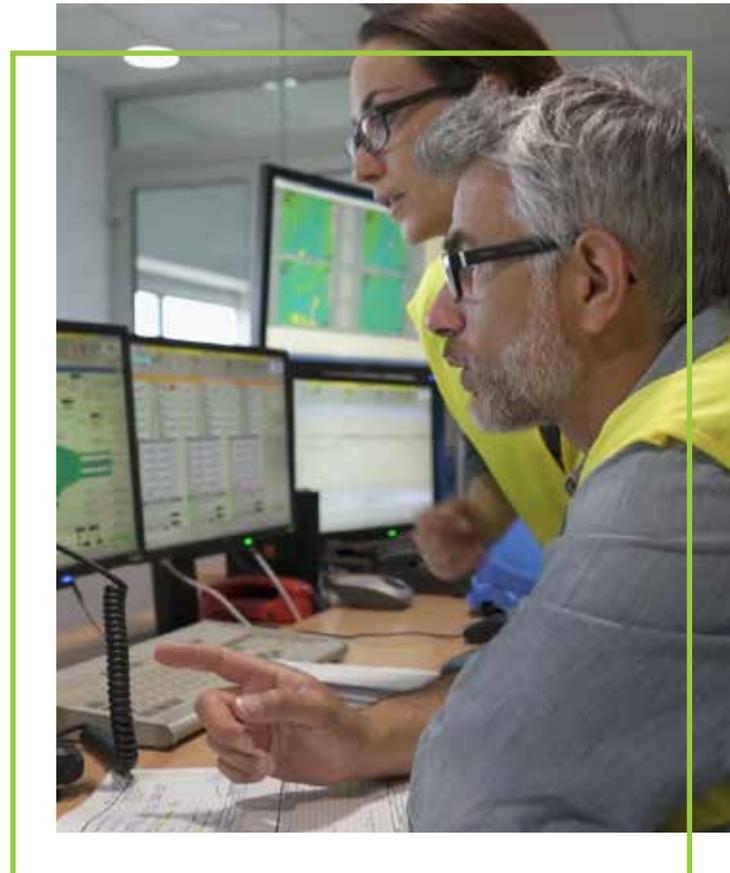

GETTING STARTED

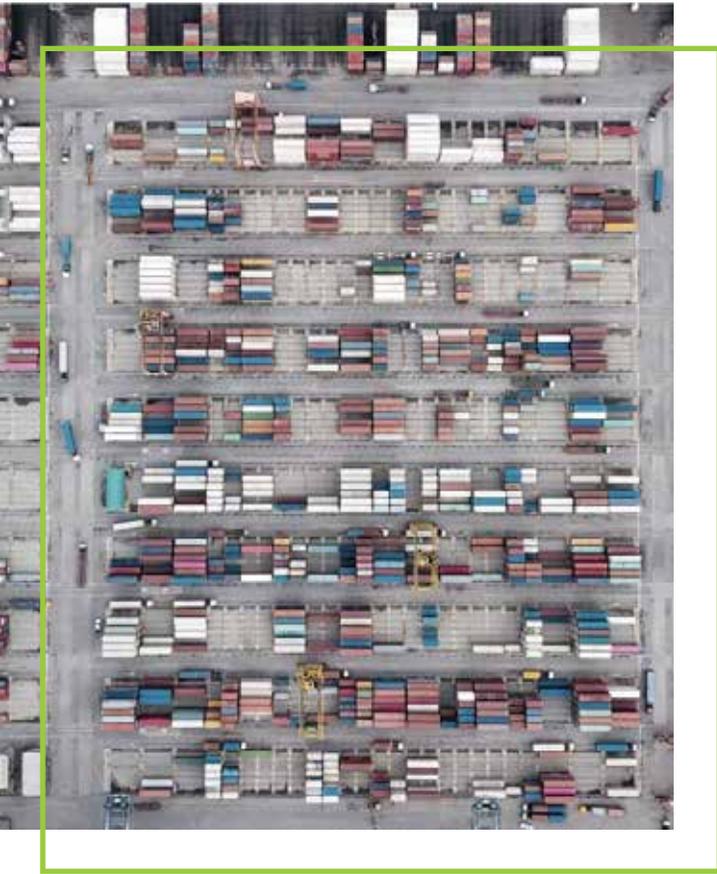

See

We'll show you how Mission Secure can support your OT cybersecurity journey, where we can fit into your unique OT network, and how we can help you stop OT cyber threats head-on.

From your first visit to our website to your first Zoom meeting with our sales team we'll show you:

- ✓ How to mature your current OT cybersecurity program
- ✓ How to improve your compliance with industry frameworks
- ✓ How to minimize your OT cyber risks, and not only detect but stop OT cyber threats
- ✓ How we can augment your team to keep an eye on your OT cybersecurity 24/7

GETTING STARTED

Assess

If you're wondering where to go with your OT cybersecurity program, what to do with the different industry cybersecurity frameworks, or how to justify the security improvements you know are needed, a Mission Secure Assessment might be the best next step for you. We'll help you understand:

- ✓ The current state of your OT network and the risks to your operations
- ✓ How well your current OT cybersecurity is or isn't performing
- ✓ Where you might have gaps relative to major industry cybersecurity frameworks (e.g. NIST, CISA, IEC, ISO, IMO, BIMCO...)
- ✓ Steps you can take to improve all of the above

GETTING STARTED

Protect

With the Mission Secure Platform at work in your OT networks, and our Managed Services team on the job for you 24/7, we're there with you every step of the way safeguarding your critical operations.

We'll help you achieve peace of mind knowing:

- ✓ Our patented OT platform is stopping cyber threats and reducing your risks
- ✓ Your OT cybersecurity program is monitored 24/7 by our expert team
- ✓ You comply with key elements of the major industry cybersecurity frameworks
- ✓ You're prepared to digitally transform your operations to improve efficiency and reduce costs

Customer Service You Can Depend On

Our Customer Service provides the training and assistance you'll need to get the full value of the Mission Secure tools and technology at your disposal. **We'll be there to provide:**

Our Expertise

Get a "named" customer success team member who'll work with you through your entire deployment.

Installation and Test

Design, pre-staging, shipping, and either remote or on-site installation and testing.

Answers

Whether you like weekly review meetings, phone conversations or emailed Q&A, we'll be there to answer your questions.

Tips and Tricks

The Mission Secure Platform is simple to use, but we'll make sure you know how to get maximum value from it to protect your operations.

*Especially in the OT environment, cybersecurity resources and expertise are scarce, and it impacts our clients around the world. With Mission Secure Managed Services, we take on this burden, supporting our clients every step of their journey – **making the path to OT cyber-protection easier and financially feasible.***

Don Ward, SVP Global Services, Mission Secure

Protect your OT network.
